# THE GREATEST LASER EPILATION TECHNOLOGY IN AN EXTRA SMALL SIZE.

## THE INNOVATIVE PLATFORM OF PERMANENT PROGRESSIVE EPILATION.

- High Speed 20 Hz Diode laser
- Water Chiller, the innovative cooling system
- No Drive System, the exclusive Laser steering system

## BENEFITS:

- Reliable on all phototypes
- High-performing and safe on tanned skin
- Results never seen before, in total safety

## TECHNICAL CHARACTERISTICS

WAVE LENGTH: 808 nm Diode

WORKING METHOD: Multi/single pulse

OPERATOR GUIDE/DISPLAY: 10" LCD touch screen

SPOT SIZE: 1,28 cm<sup>2</sup>

PULSE DURATION: From 20 to up to 300 ms in steps of 10 ms

FREQUENCY: From 1 to 20 Hz

ENERGY DENSITY: Max 40 J/cm<sup>2</sup>

COOLING: Cycle of internal water cooling with Chiller system

LASER CLASS: 4

EMISSION CONTROL: At microprocessor

EMISSION SYSTEM: Pedal/button

COOLING AREA OF THE HANDPIECE: 6 cm<sup>2</sup>

SIZE: 533x410x512 cm

WEIGHT: 23 kg
