

FISIOSPHERE, THE MECHANICAL ENDOMASSAGE WITH PULSED MAGNETIC FIELDS.

This equipment combines the effectiveness of two technologies, one mechanical with the use of Two-Direction Motorized Rollers, and the other energetic with the use of Pulsed Magnetic Fields. This combination is protected by an exclusive patent which takes the name of D.E.S. Technology-Dual Energy System (Italy Patent n° 0001409807).

FISIOSPHERE SUCCESSFULLY TREATS IMPERFECTIONS ON THE FACE AND BODY USING 16 SPECIFIC PROGRAMS.

- Cellulite**
- Localised fat
- Skin laxity
- Wrinkles
- Tissue aging

** thereby meaning the cellulite imperfections

TECHNICAL CHARACTERISTICS

DISPLAY: Adjustable 10" Touch Screen

D.E.S. TECHNOLOGY:

1. RMM: Motorized Rollers With Two-Direction Handling
2. CMP: Pulsed Magnetic Fields

USB: ability to save custom programs on pen drive

16 PROGRAMS: wide range of treatments with ability to customize

HANDPIECE SURFACE AREA:

Maxi D.E.S. 15,50 cm²

Mini D.E.S. 11,00 cm²

CMP Face Ø mm 19,00

CMP Power 8,00 cm²
